

GSM Coin Payphone MX-920GSM

The CX-920GSM Coin Payphone is designed to meet GSM operators & the public's requirements by providing competitive tariff as well as public communication in rural areas. Moreover, its easy & quick installation without laying any copper lines make it perfect alternative to the PSTN payphones. It is indeed the opportunity to render the payphone industry a new profitable business.

Many advanced and adaptable features offered by the Max Payphone range, including the ability to integrate GSM Wireless module, larger external coin box and new value added services, make this the ideal product to satisfy the customers ever changing needs.
